
QUALICOAT CONGRESS 2026

To the General Licensees and the EC and TC members of QUALICOAT and QUALIDECO

Zurich, August 2026

Celebrate with us: 40 years of QUALICOAT and 30 years of QUALIDECO!

Dear Members,

It is with great pleasure that we invite you to join us in celebrating the 40th Anniversary of QUALICOAT and the 30th Anniversary of QUALIDECO by participating in the QCT Congress 2026, to be held at the Sofitel Munich Bayerpost, Munich, Germany.

2026 marks two milestones that reflect the dedication, expertise and commitment of our entire global network of General Licensees, coaters, powder manufacturers, chemical manufacturers and approval holders. This year's Congress will place a strong emphasis on external perspectives, with a programme featuring voices from architecture, construction and the broader aluminium industry, alongside our traditional QUALICOAT and QUALIDECO programme items.

On the evening of Thursday 19 November 2026, we will hold a Drinks Reception and Gala Dinner for all registered participants at the Allianz Arena Munich. On Friday 20 November 2026, the Congress Day will offer a full programme of presentations organised around three content clusters: Architecture, Design and Projects; System Houses and Project Delivery; and Technical, Regulatory and Legislative Developments.

An exhibition will run alongside the Congress Day, offering important promotional opportunities for suppliers to our industry and other interested parties.

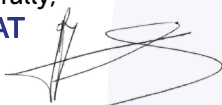

The working language of the Congress will be English, but simultaneous translation will be available in French, Spanish, Italian and German.

A block of rooms has been reserved for Congress delegates at the Sofitel Munich Bayerpost. Participants should book accommodation directly with the hotel. Booking details can be found in this [Sofitel Link](#). Full information on the programme, registration fees, and sponsorship and exhibition opportunities will be made available on the Congress website congress.qualicoat.net. All enquiries can be directed to the Secretariat at congress@qualicoat.net.

We warmly encourage all General Licensees to invite their member coaters, powder manufacturers and chemical manufacturers, as well as any interested parties in their own region, to be part of their delegation to the Congress and join this landmark celebration.

We look forward to seeing you in Munich for what promises to be an exceptional gathering of our global community.

Yours Faithfully,
QUALICOAT

Ivo Vermeeren

President, QUALICOAT
